SML Black and Brown Small: 19.75" spine length / 14.5" across the widest part of the seat Medium: 21.75" spine length / 16" across seat

Large: 23.25" spine length / 16.5" across seat

New ThinLine Trifecta Cotton Half Pad

What has been upgraded?

- Upgraded cotton pad base. Denser weave with light wool fill in the quilt.
  - Upgraded billet straps and binding. Stronger and more durable.
  - Increased wither profile that accommodates more toplines.
- The new Cotton Trifectas have the same great benefits you know and trust!
- Ultimate protection for both the horse and rider's backs.
  - Reduces rider movement and prevents saddle slip.
  - Contoured spine free channel for comfort.
  - 95% shock absorption.
  - Breathable to release heat and moisture.
  - Shimmable for customized saddle fit.
  - Easy maintenance and long-lasting performance.
  - Low profile correction saddle pad, measuring less than 1/2" thick, allows for close communication and feel.

Shims not included - purchase your shims through our website

What is ThinLine? - ThinLine is a thin, shock absorbing non slip breathable foam and is the only product endorsed by surgeons, master saddlers, riders and veterinarians.

# ThinLine Half Pad sheepskin trim

\$369.00

SML BL,W,Br,Nat

ThinLine is sewn on top of the high-quality cotton with medical grade sheepskin under the panels and at the front roll. Underneath the ThinLine layer is a pocket to insert shims to help with minor saddle fit adjustments.

New Upgrades:

- Spine channel now has sheepskin that is sheared shorter, creating a spine free center band.
- Wither profile- raised to accommodate more toplines.
- Improved cotton base- higher quality cotton with denser weave and light wool fill.
- Improved billet straps- stronger and more durable.
- With the same features you know and trust:
  - Shimmable for customized saddle fit with shims made of the same trademark foam.
  - Shaped wither profile provides clearance while the ThinLine panels help create a spine free channel.
  - 95% shock absorption is provided by the ThinLine foam which also minimizes rider movement creating a quieter seat.
  - ThinLine's open cell technology provides 100% breathability and is non-slip.
  - Medical grade Merino wool on a natural hide.

## **Thinline Trifecta Full Sheepskin Comfort Half Pad**

- Wither profile- raised to accommodate more toplines.
- Improved cotton base- higher quality cotton with denser weave and light wool fill.
- Improved billet straps- stronger and more durable.

# Winderen saddle half pad dressage Correction Slim 10mm

\$559.00

The “Correction” version of Winderen’s saddle half pad has a special cover that ensures the perfect fit regardless of the number of inserts used. No matter which configuration you choose its, panels remain stable and in an optimal position. Correction saddle half pad is based on Winderen Back Protect Solution inserts in Comfort version (18 mm / 0.7” thick) or Slim (10 mm / 0.4” thick).

Inserts with 6 pockets

More precise fit to the horse's muscles. The shape of the panels was created in consultation with veterinarians and physiotherapists to perfectly adapt to the horse's back line. The middle panel helps to correct the position and adherence of the saddle to the back of horses with hollowed back lines.

Correction Cover

The Correction saddle half pad comes with a cover with an elastic band that perfectly fits the inserts. No matter which configuration of the pads you choose, the panels are always in an optimal and stable position.

Correction Felt Inserts

The set includes panels in three thicknesses: 2 mm / 0.08”, 3 mm / 0.12” and 4 mm / 0.16”. It allows you to adjust the pad up to 9 mm / 0.35” and makes it possible to regulate the desired correction in the range from 2 mm / 0.08” to 9 mm / 0.35” on both sides.

# Winderen saddle half pad dressage Comfort 18mm

\$499

The Winderen saddle half pad with Back Protect Solution technology was designed to make you feel relaxed in the saddle while protecting both your and your horse's back. Five technologically advanced layers provide you with maximum comfort, stability and enhance your riding experience by connecting horse and rider in complete harmony.

## Benefits for the horse

- Perfect Fit - The significant spot pressure reduction and the even load distribution on the horse's back make your saddle fit properly.
- Muscle Support - The muscles along your horse's back can now loosen and tighten much more easily during your everyday training sessions.
- Movement - Your horse moves freely and easily in each gait.
- Dynamically Reduced Pressure - The pressure on your horse's back when taking off and landing during jumping is significantly reduced.

## Benefits for the rider

- Ergonomic Design - Your back muscles work more freely when riding and jumping.
- Minimised Tension - You will suffer from much less back and neck pain after training sessions or competitions.
- Saddle Stability - Minimised instability effect.

# Winderen Knee Protect Stirrups

Colours Rose Gold,Chocolate, Matt Black,Moondust,Nero,Silver Shine,Violet  
\$489

Winderen designed the Innovative stirrups Winderen Knee Protect Solution with kinetic energy absorber system in order to significantly reduce strain on the rider's knee joints during riding, especially when jumping over fences. At the same time, Winderen Knee Protect Solution stirrups allow achieving an unusually solid and unchangeable foot position in the stirrup, which provides stable and comfortable lower leg application.

The concern of a solid and unchangeable foot position in the stirrup is faced by many riders. During research, it turned out that in most cases stirrups move or fall out because of micromovements in the rigid connection point of stirrup leather with the stirrup. The absorber-system, to a large extent, prevents that phenomenon, allowing the riders to feel a stable and comfortable leg position while jumping over fences and also during flat work. Simultaneously the stirrups significantly reduce the risk of shifting or losing a stirrup, leading to the loss of balance often caused by stiff stirrups.

## **Pravins Saddle Holder \$125**

The Pravins saddle holder is handcrafted, simple, functional and has beautiful aesthetics. It can be used on a stall door in your stable or at a show, but also on a ring. It can also be adjusted to fit all saddles and the felt cover protects the leather on the underside of the saddle from marking.

Available in black or brown.

Makes a great gift!!

# Tapestry Comfort English Long Girth

\$329.00

Black or Brown 42",50",52",54",56"

Equestrians using our Long English Tapestry Comfort Girth feel the increased performance in their horses - longer striding, a more relaxed canter, deeper and more relaxed breathing, and many have said they find the distances between jumps easier to achieve.

The internationally patented Tapestry Comfort Girth is a premium girth that can improve performance and competitiveness in your horse producing freer, more natural movement.

If you happen to have a sensitive, or girthy horse, you absolutely must try this product. It will change your relationship with your horse.

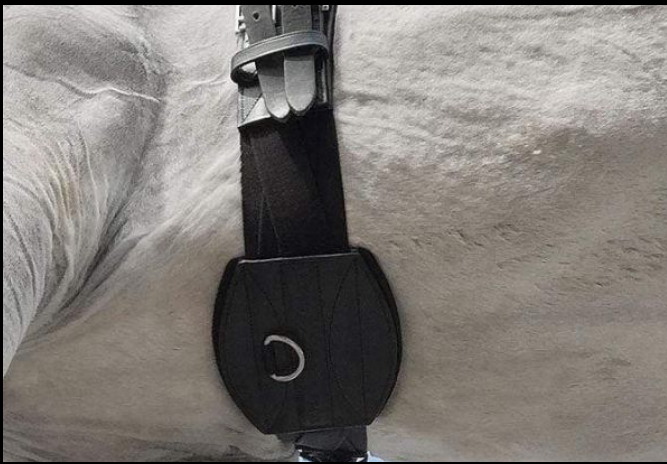

What Riders Say:

"I've used the Tapestry Comfort Girth on 10+ horses. I find their topline to be softer, and they have a quicker desire to stretch into the bridle. Those that are irritated by being girthed, now stand with a leg resting and an at ease face. I just put it on a client horse the other day and the owner was surprised she wasn't making faces and trying to nip! I use it on everyone now! I highly recommend it!"

Cedar Potts-Warner, Assistant Trainer at Baroque Farms in KY

"The girth you sent me is phenomenal! It makes such a difference on the mare that is funny about the girth. I've never seen anything work quite that well!"

Stephen Bradley, US Eventing Olympian, Winner of Burghley Horse Trials

# Tapestry Comfort Dressage/Monoflap Girth \$299

Dressage riders get the competitive edge! Horses using the Tapestry Comfort Girth move freely and comfortably. The patented design places elastics where your horse needs it most while holding the saddle in place. The simple design allows the elastic to expand at the rib cage so your horse can breath freely. If your horse had a voice... he would choose this!

## Girth Details:

The Tapestry Comfort Girth has a 6" sternum pad with non-slip neoprene that helps keep the girth and saddle in place and elastic that breathes with the horse relieving pressure behind the elbows. Quality stitching details with stainless steel buckles and a D ring for martingale or breastplate attachment. It is available in black easy care genuine leather and elastic

In sizes 22" to 32".
